We wish to call special attention to the remarkable collection of Paper Money catalogued in this sale. It is the most complete assortment of Confederate currency which has been offered to collectors since the Chamber's sale and contains innumerable varieties hitherto unpublished and unnoticed. There are a large number of watermarks which have never been offered before and a splendid assortment of notes sorted as to series and letters. Special attention is also called to the fine condition of the great proportion of the notes, including nearly all the rarities. Collectors who are familiar with Confederate notes will realize the importance of securing a large number of these rare varieties at the present time as it may be several years before they are offered again. The series of State and miscellaneous notes offered with this collection while not by any means complete contains a number of very rare notes which are seldom offered.

We solicit your bids for this sale and trust that they may be liberal.

UNITED STATES COIN CO., INC.
